## EXPERIENCE

### BINDABLE

UI ENGINEER SR.

2020 - PRESENT

UI DESIGNER/FRONT END DEVELOPER

2018 - 2019

At Bindable I work closely with a creative team of designers and engineers to efficiently build and maintain our SaaS products. My responsibilities within the team range from maintaining custom Design templates and publishing new partners, to building new features and enhancing our current experiences to make them more scalable, modern and compliant with the ever changing needs of the modern web.

### PIXELOGIC INC.

FRONT END DEVELOPER

2014-2017

DEVELOPER JR.

2013-2014

At Pixelogic I worked closely with our clients and an excellent team of creative people to develop effective digital marketing strategies and digital experiences. Among their clients are: OrientalBank, Toyota, Open Mobile, Jose Cuervo and Tequila 1800.

### FREELANCE DESIGNER & DEVELOPER

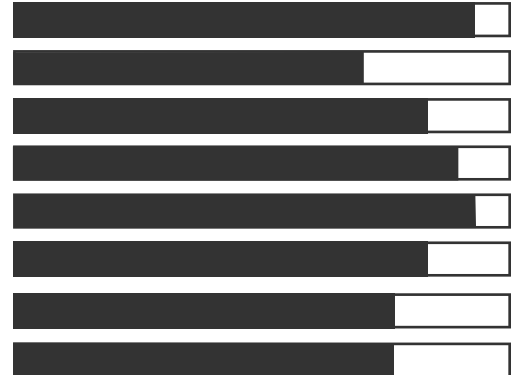

2009-2018

As a freelance designer and developer I worked directly with local Puertorican clients to help them establish and their branding identity and awareness. Some of these projects include: FollowIt, a tax Product of CEGSOFT Titans Race.
